

Mobility theft on college campuses - Andrew, A????

- 215k monies of bike devices get stolen from college campuses.
- Cable locks are bad
- Don't buy expensive mobility vehicles
- Solutions
 - Ulocks
 - Chain locks
 - Trackers
- Kryptonite bike lock patent

Our presentation - Melissa

- Read from slides.
- Challenging patent search
 - Big pharma

feedback

- Liked slide layout
- Like the topic
- Interesting topic
- Great job/on time.

Vegetation group - Akhil, Vivian, Amdadul

Akhil's backyard has a pest problem; they wish to prevent them from eating crops

- Existing solutions:
 - Ultrasonic + compressed air
 - Motion sensor alarm and sprinklers
 - Both suffer from long-term conditioning

Our presentation - Giselle

- Introduced teammates
- Listed challenges regarding motivation

feedback

- What gaps are in the current solutions set that we want to work on?
- Wearables?
-

Pipeliners: Yijie, Tahseen, Alex

- Infrastructure to move gas
- Unburnt natural gas is a greenhouse gas
- Issue - rerouting traffic and doing repairs
- Current fissure identification costs much
- Existing solutions
 - Pigging - sends a machine through the pipes to inspect and clean
 - Ultrasonic pipe testing - not necessarily accurate

Our presentation - Dustin

- Spoke too fast.
- Unprepared to present
- Introduced teammates and team name
- The audience was distracted or unengaged

Feedback

- The topic needs to be narrower and better defined.
- Important topic.
- Where will we go with this?
